WORK EXPERIENCE

Freelance | Front-end & UX/UI designer

JUN 2024 – PRESENT

- Develop and deploy end-to-end responsive web applications for international clients, managing projects independently in a fully remote setting.
- Implement cross-browser interfaces with HTML5, SCSS, JavaScript (ES6+), React.js and TypeScript.
- Integrate third-party REST APIs and backend services (Laravel, Craft CMS) to build dynamic, data-driven UIs.
- Conduct UX research, wireframing and prototyping in Figma; translate designs into pixel-perfect front-end code.
- Manage version control with Git and collaborate asynchronously with clients across time zones.

Liquid Studio | Front-end & UX/UI designer

MAR 2019 – JUN 2024

- Specialised in developing modern, accessible web applications with Craft CMS, Laravel, React.js, Angular and TypeScript, focusing on performance and WCAG accessibility compliance.
- Built semantic HTML5 structures with ARIA best practices; developed fluid responsive layouts with CSS Grid / Flexbox, tested across devices and browsers.
- Integrated RESTful APIs for dynamic content; collaborated with backend developers in an Agile environment using Git branching & PR workflows.
- Engineered micro-animations and complex transitions using GSAP and Framer Motion; proficient in UX/UI design with Figma.

The Clicklab | Art director & Web developer

DEC 2016 – JUN 2018

- Developed responsive HTML email templates and high-converting landing pages using A/B testing frameworks for lead generation.
- Integrated third-party REST APIs to capture and route leads to client CRM systems in real time.
- Wrote SQL queries and managed database schemas for lead filtering and secure storage.
- Ensured cross-client email compatibility across Gmail, Outlook, Apple Mail and mobile clients.
